Seniors and People with Disabilities
Adult abuse is the mistreatment or neglect of an elderly person or an adult with physical, developmental disabilities, or mental illness.

How can you stop abuse?
- Become aware of those who may be dependent on others for meeting their basic needs.
- Reports signs of abuse.
- Make the phone call.

Reasons to Become Involved.
The person being abused may:
- Be too ashamed or embarrassed to take action on their own.
- The abuser may be threatening the victim about reporting.
- Fear of what will happen if help is sought.
- May not be aware that the situation is abusive.
- The victim may not be aware of options available.

What help is available for the victims of abuse?
Professional staff will investigate allegations of abuse or neglect and provide information or referral to:
- Services available for abused victims and their families.
- Residential services.
- Legal Services.
- Organizations that can provide counseling services including financial counseling.
- Respite programs and in-home support services for the individual.
- Law enforcement

Mandatory Reporters of Abuse:
- Employees of government agencies.
- Physicians, nurses and other medical professionals.
- Senior Center employees.
- Social Workers.
